## New Specialised Professional Units from Ultratone

Ultratone, the pioneers and innovators of Bio Stimulation, with over 40 years of research and experience behind them, are proud to launch two new units for Professionals with specific requirements: the **Excel Pro** and the **Meditone Pro**.

Ultratone is, in fact, synonymous with Bio-Stimulation. Its patented Ultrawave signal imitates the body's own natural bio-electric energy and emits a series of different waveforms, impulses, amplitudes and frequencies to Stimulate, Tone, Rejuvenate and Shape the treated areas. Penetrating skin, connective tissue, fat, muscle, the circulatory and lymphatic systems, the Ultrawave pulses are delivered automatically in Physiosequential Rotating patterns unique in the field of Bio-Stimulation.

**Nobody does it better than Ultratone.** The latest units use state of the art technology to generate the most comfortable signal in the world, a secret only known to Ultratone Engineers. The team of Physicists, Doctors and Physiologists who developed the holistic Body of Knowledge of Electrotherapy, have created specifically targeted Programs for Beauty Salons or Spas that only want the very best for their clients.

Professionals that purchase Ultratone equipment know that it is an investment for life, with quadruple benefits:

- Very satisfied clients with visible results.
- Response to the demand for Ultratone treatments.
- Being part of the international Ultratone Network.
- Very rapid financial rewards and years of benefits.

ULTRATONE<sup>®</sup>  
**meditonepro**

## A dedicated Professional Bodyshaper with 5 High Performance Programs

**Concentrated Bio-Stimulation is the unique feature of this unit.**

It counts 10 electronically separated outlets which supply 20 specially conceived electrodes via patented Bioptic leads, with individual intensity controls and a Safe Start device that prevents accidental stimulation before the beginning of a Program.

Five pre-set Sequential Programs rotate through optimum parameters, offering the Therapist a magic tool with which fantastic bodyshaping can be achieved. The presence of the special Ultrawave signal and TENS Microcurrent ensures maximum comfort.

**Ultrafast Inchloss** gives very quick and long lasting results as its energetic contractions produce a strong tightening of the muscles.

**Concentrated Slimming** provides precise exercise for muscles that have lost their elasticity, reducing waist, tummy, hips and thigh measurements whilst also toning the skin.

**Cellulite Reduction** will increase circulation, improve the skin's texture and appearance, helping to reduce Cellulite and superficial fat.

**Sports Training** helps to optimise physical performance and reduce the risk of injury for men and women that practise sports and enjoy outdoor pursuits.

**Detox and Rehabilitation** is designed to flush toxins away and accelerate muscle recovery, rehabilitating without stress or fatigue.

**A manual facility** is also available allowing the Therapist to alter the settings to suit the specialised needs of her/his clients.

ULTRATONE®  
**excelpro**

## 51 Top Performing Holistic Programs for Body and Face

**As its name implies, this sophisticated Professional unit is designed to Excel.**

Ten electronically separated outlets emit Ultrawave signals through patented Bioptic leads that supply impulses to 20 hypoallergenic electrodes, with individual intensity controls. A Safe Start Device prevents accidental stimulation before the beginning of a Program.

At the simple touch of a button you can select a comprehensive range of treatments featured in:

- **11 Ultratone Excel Programs:**  
Biologically sequenced Body & Face stimulation.
- **30 Ultratone Excel Multi Programs:**  
Biologically sequenced rotating Multi Face & Body stimulation with separate Programs for 3 different areas.
- **10 Programmable Ultra Programs:**  
Blank, totally adaptable Programs for specific needs.
- **Manual settings:**  
To adapt parameters during each treatment.
