

MyLab[®]Six

Affordable Performance

The Affordable Choice for Shared Services

If you're under increasing pressure to reduce the cost and improve the quality of patient care, take a look at MyLab Six — a compact new ultrasound solution for busy clinical practices.

- **Easy to use** — touchscreen operation compliments the ergonomic design of MyLab Six to reduce your stress and speed exam time
- **Excellent imaging** — the latest imaging advancements are displayed in high resolution color on your articulated widescreen monitor
- **Configurable applications** — modular application design gives you the flexibility to add more capabilities as your needs evolve

With integrated networking and remote service capabilities, MyLab Six is an excellent enhancement to your clinical practice.
